2.1 Read the following extracts and answer the questions that follow.

TOURISM TO CONTRIBUTE 12% OF SA GDP BY 2010

Michael Appel – BuaNews

Mthatha – The tourism industry is to make up about 12% of the country's GDP by the time the 2010 FIFA Soccer World Cup comes around, says the Chief Executive Officer of South African Tourism.

"We are expecting some 450 000 international travellers in the space of six weeks," he said, adding that South Africa was more than capable of handling the influx of soccer fans.

Tourism can make a contribution to the development of the economy in all nine provinces. "People can earn a living as a result of tourism. You can't talk tourism without talking economic development and you can't talk economic development without talking service excellence," stated Mr Mosola.

WHAT IS GOVERNMENT DOING?

Marthinus van Schalkwyk – Minister of Environmental Affairs and Tourism

We are aiming to improve visitor satisfaction and have developed a wide-ranging strategy to attain service excellence in the tourism industry. Today our department, in conjunction with a number of stakeholders, are proud to release the Draft National Service Excellence Strategy for Tourism in South Africa.

The Tourism Satellite Account (TSA), which will help us better measure the economic influence of tourism, has been finalised and will be launched at the Tourism Indaba in May 2009.

The Local Government Tourism Indaba will be held in January 2009. We hope that this Indaba will encourage better planning by the local authorities to ensure that the needs of the industry (regarding development and improvement of infrastructure) are taken into account.

SECTION C: RESPONSIBLE AND SUSTAINABLE TOURISM**QUESTION 4**

4.1 Read the following extract and answer the questions that follow.

environment
& tourism

Department:
Environmental Affairs and Tourism
REPUBLIC OF SOUTH AFRICA

In 1996, the South African Government issued the White Paper on the Development and Promotion of Tourism in South Africa, in which responsible tourism was described as an 'absolute necessity if South Africa is to emerge as a successful international competitor'.

In order to provide national guidance to demonstrate progress towards the principles of responsible tourism, the following guidelines, conferences, award ceremonies and trademark bodies were set up by the government:

- Responsible Tourism Guidelines were published in 2002.
- In 2001 South African Tourism launched the Emerging Tourism Entrepreneur of the Year Awards (ETEYA), designed primarily to encourage and sustain the development of small businesses within the tourism industry.
- At the World Summit on Sustainable Development in 2002, the Imvelo Awards were announced in Johannesburg.
- 2003 saw the birth of the Fair Trade in Tourism South Africa trademark (FTTSA), an ICUN (World Conservation Union) initiative that recognises certain special tourism businesses for their efforts in sustainable tourism.

4.1.1 Name the organisation that was responsible for drawing up the Responsible Tourism Guidelines. (1)

4.1.2 Explain how the Responsible Tourism Guidelines will ensure that tourism businesses practise responsible and sustainable tourism. (2)

4.1.3 Responsible tourism addresses the three pillars (Triple Bottom-Line Approach) of sustainable development.

Give an explanation for each of the following pillars:

- (a) Economic responsibility
- (b) Social development and responsibility
- (c) Responsibility towards the natural environment (3 x 2) (6)

- 4.1.4 Explain why a tourism business will receive the following awards:
- (a) Imvelo Awards (2)
 - (b) ETEYA Awards (2)
- 4.1.5 Give TWO reasons why ecotourists are willing to pay a higher price for tourism products and services endorsed (accepted) by FTTSA. (4)
- 4.2 Read the extract below and answer the questions that follow.

The Carbon Curse

(Carbon tax is environmental tax on emissions of fossil fuels.)

*Carbon tax is based on the idea
that the polluters pay*

The earth is undoubtedly heating up – and more than likely humans are assisting the cause. We're burning fossil fuels and releasing carbon into the atmosphere on a scale of millions of tons a day.

Something has to be done about all this. There was an international attempt to get countries to agree to reduce their greenhouse emissions by signing a protocol document. However, big-time polluters such as the United States and Australia refused to sign the protocol, but most other countries did, including South Africa and many other countries in Africa.

So, arriving at the Zimbabwean or Zambian border in your diesel-guzzling 4x4 and finding you have to pay carbon tax, is irritating, but possibly a sign of progress.

At the Zimbabwean border a small car will be charged R60 and a vehicle over 3 000 cc will cost you R270. On entering Zambia, the tax is about the same and in both cases you must pay in foreign currency. Citizens of these countries also have to pay carbon tax, though it's lower and can be paid in local currency.

[Adapted from: *Getaway*, September 2006]

- 4.2.1 State ONE cause of greenhouse emissions mentioned in the extract that can result from tourism activities. (2)
- 4.2.2 Name the international agreement signed by countries to reduce their greenhouse emissions. (2)
- 4.2.3 (a) Do you think the international agreement mentioned in QUESTION 4.2.2 is globally successful in reducing the greenhouse emissions? (1)
- (b) Motivate your answer. (2)
- 4.2.4 (a) From the illustration, identify the foreign currency that international tourists are expected to use in Zimbabwe and Zambia to pay carbon tax with. (1)
- (b) Give ONE reason why international tourists are required to pay in this foreign currency. (2)
- 4.2.5

You are a marketing consultant for RETOSA (Regional Tourism Organisation of Southern Africa). As part of your marketing strategy, you are required to motivate the introduction of carbon tax in all the SADC countries.
- (a) Give ONE reason why you would introduce carbon tax in SADC countries. (1)
- (b) Suggest THREE ways in which a tourist could contribute to the reduction of fossil fuel emissions. (6)

(a) Calculate the amount in rand that Family 1 would receive for their British pounds. (2)

(b) Calculate the amount in rand that Family 2 would receive for their British pounds. (2)

(c) State which one of the two families benefited the most from their visit to South Africa. Give ONE reason for your answer. (2)

6.5 Read the extract below and answer the questions that follow.

BOOST FOR THE ECONOMY

According to the consulting firm, Grant Thornton, the Soccer World Cup will pump around R21,3 billion into South Africa's economy, generating an estimated R12,7 billion in direct spending and creating an estimated 159 000 new jobs.

The country's tourism industry will benefit from the estimated three million visitors expected for the tournament, while construction and engineering companies will look to a slice of the billions to be spent on infrastructure in the lead-up to the event.

However, the indirect spin-offs of an improved image abroad could have an even greater impact on the economy.

"There will be a big direct injection for the economy," Standard Bank economist Goolam Ballim said after FIFA announced the 2010 host. "But the indirect impact may be more meaningful for a sustainable economic lift in subsequent years ... It will help change the perceptions that a large number of foreign investors hold of Africa and South Africa."

[Adapted from: SouthAfrica.info]

- 6.5.1 The 2010 FIFA Soccer World Cup is a global current event. Give ONE reason why it can be considered as a global event. (2)
- 6.5.2 Suggest TWO benefits that each of the following are going to enjoy through the hosting of the 2010 FIFA Soccer World Cup:
- (a) Infrastructure (4)
 - (b) South African economy (4)
- 6.5.3 Refer to the extract, suggest ONE indirect benefit that the hosting of the 2010 FIFA Soccer World Cup will have for South Africa. (2)

28 August 2009

Dear Sir/Madam

POOR SERVICE DELIVERY: BETTERBEST TAXI'S AND TOURS

Our company had received a delegation from out of town and we needed to travel to several venues during the course of the day. At the different venues there were other people to meet, so timing was very important. We booked BetterBest Taxi's and Tours and received written confirmation for 08:00 on 28 August 2009 at our offices.

At 08:20 there was no sign of the driver and we had not received a call notifying us of any delay. I contacted Vuyisile at 021 419 7742, who told me the driver was still 20 minutes away and that he didn't "know why the driver is late because he knew about the appointment last night". Eventually at 08:55 (almost an hour late) the driver arrived.

I now have the task of rescheduling all the meetings for today with lots of different people and this reflects badly on our company's proficiency.

We will stick to WorldHire from now on as they have never let us down. Clearly BetterBest is not reliable.

Yours sincerely

Dear Mr Radebe

Thank you for bringing this to our attention. We apologise for any inconvenience we have caused you. Our driver was 55 minutes late due to an oversight – a human error. We have taken the necessary steps to correct this.

In addition, there will be no charge for today's service, and we have extended a complimentary taxi service for one full day to your company. We hope that you will give us an opportunity to prove our usual high standard of service.

Yours sincerely
